### **Social exclusion, infant behavior, social isolation, and maternal expectations independently predict maternal depressive symptoms**

John E. D. Eastwood, Bin Jalaludin, Lynn Kemp, Hai Phung, Bryanne A. M. Barnett & Jacinta Tobin

*Brain and Behavior* 2013; 3(1): 14–23

On page 15, we made the following material error:  
“ $n = 2199$ ” should be “ $n = 21,991$ .”

We regret this error. It has no consequences for the reported analyses and conclusions.
